COMPLIMENTS OF

S. A. RUDOLPH'S SONS & CO.

MANUFACTURERS OF

PAPER

506 MARKET STREET,

PHILADELPHIA.

GENTLEMEN:

We present you with this book, which you will find valuable in all cases where other than the standard size of paper is to be used. (For example: to find the weight of a sheet of paper 33 x 46, thickness of 24 x 38—30, you will turn to the page having that size on, and by following the column down which has 30 at the top, you will find it to be 51: where you use 25 x 38 as a standard, it can be done by using the row of figures after the size 25 x 38, instead of those printed at the top of each page.)

We also show the different kinds of Papers we manufacture and are agents for, and would be pleased to send samples and prices to you, and think we can offer you some inducement, as we have full lines and varied stock and are manufacturers of all kinds and grades of Paper.
